

EDUCATION AND SCHOLASTIC ACHIEVEMENTS

Program	Institute	% / CGPA	Year
B.Tech in Naval Architecture and Ocean Engineering	Indian Institute of Technology, Madras	8.97 / 10	2028
Class XII (Karnataka State Board)	RV PU College, Bengaluru	98.7 %	2024
Class X (ICSE)	Little Flower Public School, Bengaluru	97.3 %	2022
- Secured 99.22 percentile in JEE Mains & AIR 6023 in JEE Advanced among 12 lakh & 1.8 lakh candidates respectively [top 0.7%]. - Secured state rank 7 in Karnataka in Class XII among 6.8L candidates [Top 0.001%] with 100/100 in Physics & Computer Science. - Achieved AIR 67 and a 100 percentile in Chemistry in COMEDK 2024 among 1.18 lakh engineering aspirants throughout India. - Secured Rank 539 in KCET^[1] 2024 among 3.10 lakh engineering candidates, placing in the top 0.17% across Karnataka state. - Awarded multiple general proficiency accolades, subject & excellence prizes throughout school and pre-university college.			2024 2024 2024 2024 -

PROFESSIONAL EXPERIENCE

Edchemy Product Strategy Intern May '26 – Present	EdTech company (SaaS) with 400+ institutional clients incl. NLSIU, National Law universities, 200+ schools nationwide.
	- Assessed end-to-end commercial feasibility of an AI assessment product across K-12 schools & university segments - Mapped 6+ AI tools; structured a 3-tier pricing model, projecting breakeven at 20% adoption across existing clients - Developed business model & GTM framework; built a launch roadmap enabling founding team's go/no-go decision

CASE STUDY COMPETITIONS

Samnivesha IIT Patna Winner, 2026	Won 1st position in a sustainability focused case study conducted by IIT Patna, outcompeting 400+ other teams. - Proposed a low-carbon concrete mix that cuts CO₂ emissions by 60%, replacing clinker with industrial by-products. - Modelled national adoption scenario projecting 50 Mt^[7] CO₂ savings per year with zero new capex infrastructure.
Fisconomics IIT Madras 3 rd Place, 2026	Won 3rd place in a finance case competition tasked with redesigning budget allocation for a district in Rajasthan. - Identified key bottlenecks suppressing economic growth, having per capita income 46% below the national average. Proposed ₹806 Cr budget allocation across high-impact sectors, projecting ₹1,641 Cr economic impact in 5 years.
Delhivery Way IIT Kharagpur National Finalist, 2026	- Ranked Top 10 nationally among 2,616 teams at IIT Kharagpur, evaluated directly by Delhivery's C-suite leadership - Built a full GTM strategy to launch a C2C shipping app, projecting 60% CAC^[8] reduction with 18% EBITDA^[9] margin. - Devised zero-capex expansion strategy by embedding the Delhivery app within UPI platforms & social selling apps.
Strategia, SIBM Pune National Finalist, 2026	- Ranked Top 8 nationally of 1,200 teams at SIBM's case competition; only undergraduate team with 7 MBA finalists - Diagnosed and prescribed a full turnaround strategy across marketing & finance for a struggling beverage startup.
ChangePay NIT Surathkal National Finalist, 2026	Secured Top 10 finish among 200+ teams in ChangePay's national GTM and marketplace strategy competition - Diagnosed 4 structural adoption barriers across ₹50Cr campus economy, mapping friction across 1,250 daily orders - Designed vendor-first digitization strategy anchoring on Isthara Mess (800 orders/day), projecting ₹15L daily GMV - Modelled unit economics yielding 31x LTV:CAC ratio & 11-day payback period, with a 6-month industry benchmark

Technical Projects and Competitions

Guided UAV Aero Club	Engineered a 2m wingspan fixed-wing UAV, from concept to flight targeting drone-tracking & defense applications. - Designed full aircraft CAD^[2] assembly in Autodesk Fusion 360; fabricated using glass and carbon fibre composites. - Deployed YOLO CV^[3] model for real-time object detection, achieved 0.6 confidence with aerial targets at ~30 FPS^[4]. - Programmed automatic safety responses & set up drone communication completing 4-milestone test campaigns.
IMC^[13] Prosperity 4 (Phase 1) May '26	- Ranked 8th in India and 41st globally in IMC Prosperity 4, algorithmic trading competition with over 22,000 teams. - Engineered Python trading bots using market-making strategies across equities, options and fair-value estimation. - Back-tested strategies on 360,000+ historical data rows, iterating to maximize PnL through systematic log analysis.
Mini mouse Robotics club	- Engineered autonomous micro-mouse from a line-following bot, using flood-fill pathfinding to solve an 8x8 maze. - Iterated hardware-software stack across 5+ cycles using Arduino & IR sensors, cutting navigation errors by ~40%. - Deployed A*[5] path planning algorithm enabling sub-optimal path correction in real time during maze traversal.
UAV visual tracking system	- Engineered a 2-stage visual tracking pipeline: YOLOv8 for initial detection - Integrated cv2.KalmanFilter (4-state: x, y, vx, vy) with KCF bbox centroid measurements - Implemented dynamic tracker re-initialization — on KCF failure, system automatically reacquires target via YOLO
JP Morgan Chase & Co Research Simulation	- Developed pricing models for commodity storage contracts, integrating cost factors & market conditions - Analyzed loan data, built logistic regression model to predict probability of default, with 99% accuracy - Maximized log-likelihood using dynamic programming to bucket 9900+ FICO scores by default density
Algorithmic Poker Bot IIT PokerBots 2026	- Engineered heads-up poker bot with Monte Carlo equity simulation across 250 sims/decision. - Built dynamic decision logic with 6 equity thresholds across preflop/flop/turn/river, adjusting aggression based on board texture, pot odds, stack-to-pot ratio, and per-street raise counts to prevent escalation loops.
Answer Paper Evaluation Self-project	Developed LLM grading pipeline using PDF segmentation, script OCR, and JSON prompting across 7 NLP tasks. Benchmarked 4+ LLMs on handwriting recognition, step-marking accuracy, reasoning on 14 subject-grade combos Built React dashboard with Python backend; automated scoring across 7 subjects, 2 grade levels.

Equity Intelligence System Self-project	- Engineered AI equity platform analyzing 70+ Nifty companies via dual-source financial ingestion & Gemini scoring - Architected 9-layer ETL pipeline ingesting NSE PDFs, exposing 15+ endpoints via custom MCP server - Built Z-score peer evaluation engine for ranked stock comparison across fundamental & qualitative dimensions	
POSITIONS OF RESPONSIBILITY		
Shaastra CR Head Sponsorship & PR May '26 - Present	- Leading INR 1.9 Cr monetary sponsorship target for Shaastra '27 with a year-long strategy and execution roadmap - Spearheading mentorship for a team of 18 coordinators to acquire in-kind and monetary sponsorships worth 15L+ - Identified and pursued new sponsorship avenues; defined KPIs to assess growth & revamped sponsor engagement	
Manager Startup Services, E-Cell May '25 – May '26	- Spearheaded startup-investor matchmaking event at E-Summit '26, IIT Madras, gaining ~10 investor commitments. - Scaled meetings 33% YoY, registrations 2.5x YoY growth; managed end-to-end outreach achieving zero disruptions. - Built an AI-powered matchmaking portal with slot scheduling, streamlining pairing logistics across 120+ meetings.	
Coordinator Aero Club May '25 – May '26	- Delivered YouTube live on autonomous navigation & path planning covering A*, RRT^[6] algorithm, autonomy stacks - Conducted live UAV flight missions using Pixhawk, training students in sensor fusion, and real-time path planning. - Designed & executed end-to-end curriculum for 20 juniors on aerodynamics, drone assembly & mission execution.	
Deputy Coordinator Finance Club Aug '24 – May '25	- Organized 36' Wall Street flagship event across 3 days, engaging 400+ participants through diverse finance tracks. - Secured in-kind sponsorship deals and managed club finances to deliver speaker sessions and large-scale events. - Analyzed consumer behavior & market trends to develop event themes aligned with current FMCG, equity insights.	
SOCIAL INITIATIVES AND EXTRA-CURRICULARS		
Startup Services Program	- Managed end-to-end consulting for N3X, AI SaaS startup, for market research, GTM^[10] strategy & MVP^[11] launch. - Benchmarked SprintPilot against 10+ rivals across 6 features & dimensions; proposed a freemium PLG^[12] strategy.	
Tensors NGO/NPO	- Engineered high-difficulty JEE Advanced & Olympiad problems for national mock tests given by 1000+ students. - Pitched and expanded the program to 50+ coaching institutes across India, expanding outreach and participation. Mentored 30+ class X-XII students through 1:1 counseling sessions, delivering academic guidance & exam strategy.	
Vivarta, IIT Madras Climate Awareness Club	- Spearheaded climate outreach initiatives including interviewing an IISc professor on environmental research. - Designed climate awareness posters across campus, driving engagement and participation on sustainability issues.	
Sports and Cultural	- Achieved Runner-Up finish at state-level table tennis tournament; took part in numerous state-level tournaments. - Represented Bangalore Football Club in under-16 football leagues throughout the state as part of BFC U-16 team. - Part of Oratory Contingent, IIT Madras. Won 5+ inter-school competitions in Elocution, Declamation, and Debate. Performed at Kannada Sahithya Parishat. Proficient in Keyboard & Tabla. Performed on stage for Sanchari Theatre	
COURSEWORK AND SKILLS		
Principles of economics	Machine learning foundations	Linear algebra
Basic electrical circuits & instruments	Data Structures & Algorithms	Innovation and entrepreneurship
Analysis of Structures	Multivariable calculus	Differential equations
Python, Matlab, C++	Scientific Computing in C++	Drawing
